Specter, 5/24/69

The Phila Inquirer yesterday had a small story on charges against Specter, that he had left his office extend favors in the Sylvan Scolnick case. If you recall, this is the very fat guy involved in the case of the black-mailing reporter. Now these charges are during a campaign, when Specter is running for re-election, and coming from his opposition they may be without foundation. However, if you get the Phila papers, or if you can get family or friends to clip them, something of value might come out.

Specter was said not to be available for comment because he is on vacation.

Opponent identified as David Berger. Unknown to me. Berger made charge to State Atty. Gen.
